

Exercise 5 Solution Creating Custom Package by Munawar

Exercise 5

You have to create a package name. MunawarJohar. Shape.

This package should use inheritance to properly manage the code.

Include methods like volume, surface area and getters/setters for dimensions.

Source Code

```
import javax.swing.plaf.synth.SynthTextAreaUI;
import java.util.Scanner;
import java.util.Random;

public class Main {
    public static void main (String [] args) {
//        all source code available in solution folder
    }
}
```

Thank You
