[History of Java](#)

1991 sun micro system

Founder James Goslin

Goals

Simple

Reliable

Portable

Old name of java is Oak

First Application language of World Wide Web.

It was originally called oak by James Goslin

Java= object oriented programming

Java is compiled into the bytecode and then it is interpreted to machine code

Source Code -----> compiled -> bytecode -----> Machine code

Java Installation

JDK Java Development Kit used for development

JRE Java Runtime Environment help execution

Source Code

```
public class Main {  
    public static void main(String[] args) {  
        System.out.println("Hello world!");  
        System.out.println("Hello Munawar");  
    }  
}
```

Thank You
